We Guarantee delivery satisfaction We offer fast and inexpensive shipping options on our Brother labels. Discover the PtouchDirect.com difference today! 3. Brother Ptouch TZe tapes are the only tapes available that have a unique lamination, which makes the labels heat, cold, water, chemical and fade resistant perfect for use outdoors, cold environments and near food. The tape labels are extremely durable, have a professional finish and will outlast other label tapes. Unlike ordinary labels, Brother labels use laminated tapes for exceptional durability. The lamination ensures that it resistant to smudges, stains, streaks, marks, rips, fading and peeling. 4. PtouchDirect.com guarantees quality All our products are factory direct no third party labels, no generic names just brand new Brother Ptouch labels factory sealed and delivered to your door. Brother labels are perfect for signs, shelf tags or name badges. Organize files, computer disks and videos or label outlets, cables and switches. You can even use Brother labels around the home or in the garden. 5. Do you need a label printer User Manual we can help select your Brother Electronic Labeler from the list above. The handheld models are so compact that they can fit in the palm of your hand. The desktops are larger and need to be placed on a desk to make operation and handling easier. Though there are different models, most of the models have the same basic operating features. This ensures that your label creation is done

with ease.

The size of battery and the amount of batteries you must use will vary by the model of P Touch you are using. You will see the battery compartment on the bottom of the label maker. If you have an AC Adapter for your label maker, you can also opt to plug in the AC Adapter to use electricity instead of battery power. Pull down the lever to secure the tape cassette in place. Close the tape cassette compartment.Keep pressing the style and size buttons until you see the style and size for the font you wish to use. Your label maker display window will only display six characters at a time. However, by pressing the arrow keys you can scroll your message to the right or left to read the entire message.The label will automatically begin printing. In the office, the factory, the lab and the home, the quality and performance of the Ptouch 1900 makes it an extremely practical machine. Use only Brother TZ tapes with this machine to avoid damage. Do not use tapes that do not have the mark. Brother cannot be held responsible for trouble or damage by the use of unauthorized supplies. When the power is disconnected, all text shown in the display and stored in the memory will be lost. If the batteries are not installed with their positive and negative poles pointing in the correct direction, the batteries may leak, overheat or burst, or the print head may overheat. However, since TZ tape cassettes are avail able for this machine in a wide variety of colors and sizes, it is possible to make distinctive colorcoded and stylized labels. In addition, this machine has been designed to allow you to change the tape cassettes quickly and easily. Hold the tape in your left hand, with the printed surface facing up, and hold the stick in your right hand. Pass the tape halfway through the long narrow hole in the stick. Turn the stick threequarters of a turn towards you and pull the stick away from you as shown below.

After printing the text onto instantlettering tape and cutting off the label, position the label with its nonprinted side fac ing up on a sheet of paper. By simply rubbing the instant lettering tape's nonprinted side with the enclosed stick, you can transfer the text directly onto the paper. After printing the text onto fabric tape and cutting off the label using scissors, place the label on an ironed garment at the location where you wish to attach it in such a way that the printed text can be read correctly. If a section of the print head is covered with dust, a white horizontal streak may appear through the label text. If batteries have been installed or the machine has been plugged in using the optional AC adaptor, the previ ous session's information is displayed when the machine is turned on. This feature allows you to stop work on a label, turn off the machine, and return to it later without having to reenter the text. If this key is pressed when the cursor is at the end of a line followed by another line, the cursor moves to the beginning of the next line. To move the cursor several characters to the right Hold down w until the cursor moves to the desired position. The Alt indi cator on the left side of the display comes on while a is held down. EXAMPLE To type in "%" Hold down The Caps mode is similar to holding down s. It is differ ent from the right cursor key w , which just moves the cursor without adding blank spaces.Some questions asking you to confirm a command may appear on the LCD display, especially when the function that you have chosen will delete or affect files. The current tab length is displayed. Press h or e until the desired length is displayed or use the number keys to type in the length. To change the units inches or centimeters used to display the tab lengths, press M until the desired units are displayed. It differs from the left cursor key f , which only moves the cursor with out deleting any characters.

Press h or e until TEXT ONLY is selected flashing.Many of these characters can also be typed in using the Symbol function. The accented characters are grouped according to the capital or small letter that they are com bined with. Press In addition to the letters, symbols and numerals on the key tops, there are 53 additional marks available with the Symbol function. The following symbols are available and press and press. Press h or e to display different rows of symbols and press f or w until the desired symbol appears enlarged within the frame in the middle of the display. Press r. This function automatically adjusts the label length, tape margins and horizon tal alignment without

changing the text or any other formats, allowing you to create labels faster and easier. The currently selected setting appears in the dis play. Press h or e to select the desired setting. The Length indicator comes on if any setting other than DEFAULT is selected. Press p to cut the text out of the stamp stencil film. After the stamp stencil film is cut off, remove the backing paper from type stamp stencil film and affix it to the ink pad of a stamp film holder. Fold the other end of the stamp stencil film over the other side of the stamp film holder and hold it in place with your finger. The following font settings are available The default font setting is FONT 1. The font indicator at the bottom left of the display shows the currently selected font setting. To change the font setting 1 While holding down c, press 1 once, and keep c held down to display the current font setting. The default size setting is AUTO and the default width setting is OFF. While still holding down c, continue pressing 2 until the desired size setting is displayed. The current size setting is shown by the size indicator at the top of the display. Release c to apply the selected size setting to the entire text. While still holding down until ON is displayed.

Release You can choose from nine different character styles to apply to your text.The default underline setting is OFF. When the Underline function is set to ON, the Underline indicator on the right side of the display comes on. UNDL To turn the Underline function on or off 1 While holding down c, press 5 once, and keep c held down to display the current underline setting. The default setting is OFF; however, the following five settings are also available. When any setting other than OFF is selected, the Frame indicator on the right side of the dis play comes on. Release TAPE MARGIN FUNCTION The Tape margin function allows you to adjust the size of the margins on the left and right sides of your text.While still holding down c, continue pressing p until the desired mirror printing setting is displayed. Then the display will show the cur rent label length setting ON or OFF. Turn on the Auto cut function before starting to print in order to cut the labels automatically after printing them. Release After you have entered your text and chosen the desired format settings, you are ready to print. If the Auto cut function is set to ON, the label will automatically be cut after it is printed. Hold down Press Press If the Tape margin function is set to any setting other than NONE, a cut ting guide is printed between each label so the tape can be cut to the correct size. To use the Repeat printing function Hold down c and press I. The message default setting 1, which will need to be changed, as necessary.You can use the Memory to store your most frequently used text files.Press a number key or press h or e to select the file number where you wish to store the text. Press r. Press a number key or press h or e to select the file number containing the text that you wish to delete. The text stored under the selected file number is shown.Cause PLEASE DO NOT RETURN YOUR. We hope that you will enjoy using it. We suggest you keep all packing and other materials.

Consult your product's warranty for details. Use only Brother TZ tapes with this machine. Brother cannot be held responsible for trouble caused by the use of unauthorized supplies. Prints vertically an dhorizontally.Each label adheres to almost any surface, withstands variations in temperature from freezers to microwaves and is water resistant. These laminated labels are ideal for identifying folders, computer disks, office equipment, computer hardware, and more. The PT1800 is loaded with features, including two builtin fonts, eight type styles, seven type sizes,

vertical and mirror printing, threeline printing, and more.Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. Please try again later. Michale D Ballard 5.0 out of 5 stars I have one for my home and have owned it for many years and it has been absolutely trouble free so I bought another one of the same for my office so I have one to use at both places without having to bring it back and forth between them.It was in the box, but so old the batteries were leaking and covered in a white coating.some were dead. It operates OK when I put new batteries in. That was just a waste of time.

Needless to say, asking her to prepare things like file folder labels for both manila and Pendaflex files quickly went out the window. Luckily I found the PTouch printer. It handles a wide variety of tape sizes, and prints up to five lines of type. I use it to print identification labels for all of my electronic gadgets in case I lose them, and contents labels on boxes for the prototypes I file into storage. The labels make my files look professional and organized. And they only take seconds each to create. I wouldnt dream of making file folder labels any other way. I use my PTouch almost daily. And whats the funniest thing. My secretary borrows my PTouch to make file folder labels for everyone else in our department. Do I feel slighted that my administrative assistant makes labels for them and not for me. Not in the least. Sharing a secretary is something Ive learned not to mind. But I do wish, though that my colleagues would get their own PTouch printer!It is easy to use and prints beautiful labels. I especially appreciate how easy it is to swap out cartridges, whether its empty or you just want to change colors. I also like how you can print 2 or 3 lines on the tape, and how it centers the text automatically. Theres a huge variety of tapes available with different font colors and tape colors and tape widths and even stronger adhesives. I use this to label the myriad AC adapters under my desk, my kids school supplies and all kinds of things. I bought the fancy goldonblack to label trophies for a neighborhood dog show. I dont have the AC adapter but the 6 AA batteries seem to be lasting quite a long time. Yeah, 6 batteries is a lot, but theyre the original ones I installed years ago.We never got around to calling the technical support until recently. We will be moving and we need to organize our belongings so I gave them a call and got the thing to work properly. Now we are making labels for everything we need very easily.

www.a2zmedical.com.au/wp-content/plugins/formcraft/file-upload/server/content/files/1627433c696c1f---brookstone-coffee-for-one-manual.pdf

The machine prints in really big fonts now and it is easy for anyone to read. The only thing I wish this machine would have is a slot to hold that tool that takes the tape off the back of the labels. Its ok though since I can get the tape off without it. Worth buying if you are moving, into organization, or need it for your office. If you use it allot I would spring for the power cord Which can be bought along with more tape at Brothers website but I havent changed the batteries since I bought this marvelous device.I think you will enjoy this machine I sure do. I use mine to label sports card holders and sports autographs. Take my advice get it you will love itPage 1 of 1 Start over Page 1 of 1 In order to navigate out of this carousel please use your heading shortcut key to navigate to the next or previous heading.
